

# Avian diversity of Southern Costa Rica

Lahontan Audubon Society in partnership with Crescentia Expeditions is honored to host a new special birding trip focused on the regionally endemic birds of Southern Costa Rica!

Join us help support 2 local conservation groups and visit national parks and private reserves

Our small group will be lead by local expert guide  
Mario Cordoba

Fiery-billed Aracari

Black-cheeked Ant-Tanager

During our trip we'll visit:

- Pacific rainforest lowlands near Golfito and Osa Peninsula,
- Las Cruces Biological Station in San Vito intermountain valley
- Talamanca cloud forest mountains in San Gerardo de Dota

This tour is designed for birders with some level of experience seeking to expand their knowledge about neotropical birds.

The trip includes all lodging, all meals, professional birding guide, private a/c coach, entrance fees, printed checklist, purified drinking water & gratuities.

### Price per person:

9-10 birders: \$3650

7-8 birders: \$3900

Single supplement \$600

(Group size: min. 7 - max.10 birders)

### Dates:

Jan. 27th - Feb. 5th  
2023

### Itinerary outline

- Day 1: Hotel Bougainvilleo (Central Valley)
- Days 2-3-4: Esquinas Rainforest Lodge (Pacific Rainforest lowlands)
- Days 5-6: Las Cruces Biological Station (Middle elevation forests)
